# Swim Rafts

- Available in 7' x 8', 7' x 10', 7' x 12'.
- Removable 3-step aluminum ladder with wide non-slip steps comes standard.
- 4-Step ladder is also available.
- Marine-grade ply-deck carries limited lifetime warranty (see website for details).
- Premium thick marine carpet comes in choice of blue, grey, or tan.
- Vinyl flooring available in tan or grey.
- Optional snap-on mooring cover is available either tented (with vented support pole), or flat without pole, and with or without cut-outs for ladder.
- Approximate weight of 7' x 8' raft is 230 lbs.
- Weight capacity of 7' x 8' raft is 800 lbs. based on equal distribution of weight on raft.

7' x 8' Swim Raft  
Shown In Blue

## Square tubes

may be substituted depending  
on availability of materials

\* **Please note that our swim rafts are not intended for rough waters, salt water, or any body of water with a moving current.**

See our Anchoring diagram on our website for complete instructions on how to properly anchor our swim rafts.

## Four Mooring Eyes (standard)

Ultra strong; used for anchoring the raft

## 3-Step Aluminum Ladder (standard)

Has wide, non-slip steps and quick-release stainless J-hooks

## Mooring Cover – with Center Pole (optional)

Great protection from the elements (and birds!); available with or without cut-outs for ladder; made of specialty marine material; snaps on

## Mooring Cover – Flat (optional)

Available with or without cut-outs for ladder; snaps on

# Floating Docks

- Perfect for soft lake bottoms and deep water installations.
- Easy time-saving installation and take-out.
- Sections are available in either 4' or 6' widths by 20', 30' or 40' lengths. Two dock sections can be linked together with a factory-installed hinge. The sections can be separated for storage.
- 4'-Wide dock has 2 full-length tubes; 6'-wide dock has 3 full-length tubes.
- Mooring poles are available in 5', 10', 15' or 20' lengths and have end augers. The shoreline end of the dock is secured with an earth auger.
- Decking is available in extruded vinyl planks (in "teak" only).
- 4' Hinged approach ramp available for both 4' and 6' wide docks.
- 3- or 4-step removable aluminum dock ladder with wide, non-slip steps available.
- Aluminum tubes are .065 50/52 marine-grade aluminum, 12" diameter.

Please note that our floating docks are not engineered, built nor intended for commercial use, very rough, tidal or salt water or any body of water with a moving current. Our docks cannot be configured in an "L" or "T" shape.

Close up of vinyl "teak" material

**Shore Auger** (standard)  
Anchors dock to the shore

**6-Foot Wide Dock**  
Has 3 full-length tubes

**Dock Approach** (optional)  
Comes in 4' lengths only by 4' or 6' wide; attaches to dock with hinge pin; removes easily

**Dock Hinge** (optional)  
Used to attach sections together; removes so sections can be separated for storage

**Dock Ladder** (optional)  
Available with either 3 or 4 wide, non-slip steps and quick-release J-hooks
